

BACKGROUND OF THE INVENTION/BRIEF SUMMARY

The reasons behind this invention are most of the divorced people in our community are the people that was not happy with their partners because they made an exception. Instead of finding the man/woman of their dreams, they found some one who wasn't exactly what they were looking for, made an exception and married that person. After a few months or years they found out that they are not happy with the person, or that person doesn't have any thing in common with him/her. It is hard in our time consuming society to spend time and find the man/woman of your dreams. Most of single people have the hardest time finding what they are looking for, some of them giving up the idea of looking for the man/woman of their dream it is to time consuming and it take a lots of energy and patients. Almost every one we meet we have to spend a lot of time gathering information from them to see if they meet our personal needs and desires. A lot of time people get tired of dating and they make exception and go through life with a person who they are not even attracted to. That's why there are so many single parents and divorced couple around us.

I am a complete believer that this invention will bring the divorce percentage lower in the United States and people will have better attitudes and live happier lives because they are with some one who they are attracted to physically and mentally.

SPECIFICATION:

This invention was created for people who want to find the man/woman of their dreams. The way it works is the customer goes to the company's web site and goes through a series of questions about what he/she is looking for in a partner, customer can choose their height, weight, ethnic background, color of hair, hobbies, favorite food, favorite music, etc. The company would match customer's description to the company's database and match them up with some one exactly like their description. The customer would view the client's portfolio and photos and make their selections. After the selection process is complete customer would be set up on a date with all the clients he/she choose. After the dating cycle is complete the customer and one of the chosen clients would be treated to 5 days 6 night vocation of their choice from company's available exotic vacation spots in the world.

The customer also would have a chance to make money in the process if he/she chooses to join the company's referral program by referring customers to the company and signing them up as a client.

TITLE OF INVENTION:

TITLE OF INVENTION: THE NEW MILLENNIUM CONNECTION INC.

NAME OF INVENTOR: NAJEEB MOHAMMAD NASIM

CITIZENSHIP: AFGHANISTAN

RESIDENCE: UNITED STATES (CORONA, CA)

DESCRIPTION OF THE INVENTION:

This invention is an idea for business, it an idea to help people of all ages find the man/woman of their dreams, give them a chance to select from hundreds of people and choose the perfect one for themselves, go on a dream vacation with that person and make money in the process by joining the referral program.

Here is how it works:

PART ONE:

The idea of this invention is to get information from people about what they are looking for in a person, for example age, height, weight, color of hair, favorite music, favorite food, favorite sports, hobbies and life style, etc. This would make it easier to categorize clients. Once all the clients are categorized, it would be easier to match them up with other clients. The way the clients would make their selection is by going to the company's website and going through the series of questions about what he/she is looking for in a person. After the customer inputs all the information regarding what they are looking for in a person, the computer would match their selections to the company's files and pull information on all the clients that matched the customer description. After the matching process is complete the customer would have a chance to view the pictures of all the clients that matched his/her description to see what they look like, after viewing the pictures the customer would have to choose minimum of 3 to maximum of 10 clients that he/she like the most. The clients that were chosen by the customer would have a chance to view the customer's portfolio and picture to see if they would like to be set up on a date with the him/her. If whoever many of the clients choose the customer they would be set up on a date so they can get to know each other better. After the dating process is complete the customer and one of the client that was chosen would be treated to 5 days 6 nights vacation of their choice from the company's available exotic vacation spots in the world.
